PROJECTS

REAL TIME CHAT APPLICATION(React Sockets Node.js Express MongoDB REST API)

- Developed a dynamic and intuitive chat application crafted with precision and innovation. Designed to foster seamless communication in real-time, this application leverages the power of **React** for the frontend.
- **WebSocket** technology for real-time communication, and **Node.js** with **Express** for scalable backend logic.
- **MongoDB** stores chat-related data with flexibility, while **Styled Components** ensure modular and visually appealing UI components.

Online Film and TV Repository(React Redux Toolkit SCSS javascript TMDB API)

- Introducing Movixmod: a state-of-the-art online movie and TV show database, meticulously crafted with **React** and **Redux** Toolkit. Powered by the **TMDB API**, Movixmod offers a seamless and intuitive interface for exploring a vast collection of film information.
- Utilizing **React** and **Redux Toolkit**, Movixmod efficiently fetches data from the **TMDB API**, providing users with detailed cast, crew, and plot summaries, elegantly presented within a single platform.

WORK EXPERIENCE

Web Development Intern

Yoshops (Feb 2024 - Present)

- Spearheaded enhancements to the cart page of **Yoshops**, an e-commerce platform, focusing on optimizing user experience and streamlining checkout processes.
- Collaborated cross-functionally with design and development teams to implement **Front-end** and **Back-end** solutions, ensuring seamless integration and functionality.
- Leveraged expertise in **Front-end** as well as **Back-end** to troubleshoot issues, implement features, and improve site performance.

EDUCATION

INDIAN INSTITUTE OF INFORMATION TECHNOLOGY,NAGPUR

B.Tech in Electronics and Communication Engineering (CGPA 7.96)

Expected 2024

SKILLS

Programming Languages:	C, C++, Python
Web Development:	HTML, CSS, React, Redux toolkit, JavaScript, MongoDB, Node.js, Express
DataBase:	SQL/MYSQL,MongoDB
Other Skill:	Github,Data structure and Algorithms ,MATLAB, pandas, numpy

COURSEWORK

- | | |
|-----------------------------------|-------------------------------|
| • Data Structures and Algorithms | • Object Oriented Programming |
| • Database and Management Systems | • Operating system |
| • Application Programming | |

ACHIEVEMENTS

- Solved over **800+** questions of DSA over different coding platforms such as **GeeksforGeeks** and **LeetCode**.
- Have a coding score of **1500+** on **GeeksforGeeks** portal (institute rank 10). and **1790** rating on **Leetcode**.
- Played a pivotal role in organizing and executing many sessions on web development and competitive programming for new college students, contributing to the growth and development of **Skills Nights Club IIITN**.
- Led the Management team for **Abhivyakti**, collaborating with 20+ volunteers and coordinating logistics, resulting in seamless execution of events.
